CROWNING TRIUMPH.

Harriman Saves Day for Gould.

Latter Forced to Abandon Transcontinental Line Plans.

Western Pacific Probably Will not Build Into Los Angeles.

Means Close Traffic Alliance Between Lines in Pennsylvania.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, July 29.—[Exclusive Dispatch.] At a conference today in the office of Kuhn, Loeb & Co., E. H. Harriman, George J. Gould and Jacob H. Schiff arranged a tentative plan, by which a syndicate headed by Kuhn, Loeb & Co. and Blair & Co. are to furnish the Washburn Railroad with funds to meet the \$3,000,000 Wheeling and Lake Erie notes which mature next Saturday, and which are guaranteed by the Washburn.

This development is of far-reaching significance, in that it means the virtual abandonment of George J. Gould's attempt to form a competitive transcontinental line, consisting of the Western Pacific, Denver and Rio Grande, Missouri Pacific, Washburn, Wheeling and Lake Erie, Washburn Terminal and the Western Maryland system. The Western Pacific will probably not be completed either into San Francisco or Los Angeles.

NIGHT RIDERS THREATENING.

SAY THEY'LL WRECK TRAINS IF TROOPS REMAIN.

(BY DIRECT WIRE TO THE TIMES.)

LOUISVILLE (Ky.) July 29.—[Exclusive Dispatch.] The situation in western Kentucky between the State troops and night riders is growing critical. A clash between the two at any moment would be no surprise. The Illinois Central Railroad officials have received warnings signed with the usual crossbones and skull that the troops must be removed at once from their property under penalty that their trains will be derailed and property destroyed.

The Illinois Central has appealed to Gov. Wilson to order the militia to vacate their property. Gov. Wilson's reply is to the effect that the soldiers must eat and sleep somewhere, and if the railroad property is best suited, then they have the power and right to camp on the railroad property or any other property, paying reasonable compensation. The Governor adds:

"There has been an attempt to prevent the commonwealth force from performing their duty by refusing them a place to stay and by making others afraid to let them stay on their premises or to let provisions. Service of the commonwealth is above private rights, and they can take a place to rest and camp without consent, after previously tendering compensation, so that if your right of way is the most suitable place to have a camp it will be the officers' duty to locate there. The fact that Kuhn, Loeb & Co., the Pennsylvania and Harriman lines, have agreed to finance the Wheeling and Lake Erie notes, means that the Pennsylvania Railroad has also given its consent to the financial rehabilitation of the Wheeling and Lake Erie system and the development of the Lorain steel property, at Lorain, O., owned by the United States Steel Corporation.

BREAKS LEG IN FIST FIGHT.

Secretary Wright's Son Gets Into Scrap in Alley and Lands in Memphis Hospital.

(BY DIRECT WIRE TO THE TIMES.)

MEMPHIS (Tenn.) July 29.—[Exclusive Dispatch.] Semmes Wright, youngest son of Secretary of War Luke Wright, is in a local hospital with a broken leg as the result of a fist fight with an unknown man in Maiden Lane, a narrow alley connecting Front and Main streets, in the heart of the retail district, last night.

The fight, it is said, started when the unknown bumped into young Wright in the narrow passage, and both squared off for blows. Semmes Wright and his leg were delivered with the young Wright fell to the pavement with his leg rolled up and his opponent on top.

The police arrived and Wright was taken to the hospital. No trace has been found of his opponent.

POLISH BISHOP CONSECRATED.

CHICAGO, July 29.—Prelates, priests and laymen from all parts of the United States attended the consecration here today of Bishop-elect Paul Peter Rhode, Chicago's new auxiliary bishop and the first Polish-American priest in America to be elevated to the episcopate of the Roman Catholic church. Every section of the city containing a Polish church or school was decorated in gala array. Archbishop Quigley conducted the consecration ceremonies in the Cathedral of the Holy Name.

CHOIR STRIKE DUE TO MICE.

Fair Singers Reach High Notes and Chorus at Same Time; Then Quit.

(BY DIRECT WIRE TO THE TIMES.)

PITTSBURGH, July 29.—[Exclusive Dispatch.] Because of playful mice which last Sunday evening cavorted round their feet the fair members of the choir in the Fourth Avenue Methodist Episcopal Church in Homestead have served notice that there will be no more choir singing until every mouse in that corner of the church has been killed. The singers refuse to even go near the church to practice.

Last Sunday the mice raised Cain. The choir, consisting of four men and four young women, were rendering "Abide With Me," when the first soprano, reaching for a high note, trailed off into a shriek which set most of the congregation to wondering.

Then the soprano sat down with a thud, and was seen to be holding her feet up, shivering. A moment later the alto was seen to climb on top of a chair, but in some way the anthem was finished without a wholesale exodus of choir ladies.

Curious Situation in Country When Censor Finds Himself Jobless.

People of Constantinople Do not Take Constitution Seriously.

Ruler and Subjects Fear Intangible Disaster Is Impending.

(BY DIRECT WIRE TO THE TIMES.)

CONSTANTINOPLE, July 29.—[Exclusive Dispatch.] Curious incidents mark the effort of Turkey to adapt itself to constitutionalism. The press presumably is free, but the censor finds himself unable to assist late the fact that he is out of a job. When the newspapers immediately after the Sultan's irade, began to print extracts from the text of the constitution, the censor called a halt.

"Don't do this," he said, "or I will lock you up."

"But," replied the editors, "we have a constitution now and this instrument provides that the press shall be free."

The censor read the passage cited, rubbed his eyes, growled and let the newspapers print what they liked. The provinces are wild with joy. They think the millennium has suddenly arrived and the provincial Turks are about the proudest people on earth just now. In the capital things are different. Nobody here takes the constitution over seriously, for everybody feels that the old dangers to personal liberty and the money of justice still prevail. The people would like to shout and throw up their hats, but they are afraid to make a move.

CELEBRATED PREMATURELY.

ART EDITOR LOST POINT AFTER PRELIMINARY TRIUMPH.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, July 29.—[Exclusive Dispatch.] "Art for art's sake" is the gist of an opinion rendered today by Atty.-Gen. Bonaparte in the case of Editor Campbell of the Fine Arts Journal, who is prohibited from sending reproductions of the old masters in the "altogether" through the mails.

The Fine Arts Journal was recently temporarily barred by Paul Hull, superintendent of second-class matter in the Chicago postoffice, but was allowed to resume the use of the mails by the Attorney-General, who declared that it "might be perfectly proper for a nude picture to be published in an art magazine."

The victory so elated Editor Campbell that he advertised to give away "free" the picture of the nude "La Bourne" with the July issue of the Art Journal.

Superintendent Hull, however, discovered the plans of Editor Campbell. He made a report to the Attorney-General with the result that the decisive opinion was given.

MUCH LOSS OF LIFE IN TRAIN OF AUSTRIAN DROUGHT.

Peasants Unable to Obtain Pastureage and Two Are Killed by Floods in Other Parts of Monarchy.

(BY DIRECT WIRE TO THE TIMES.)

VIENNA, July 29.—[Exclusive Dispatch.] At Jomany, in Croatia, the peasants, unable to obtain fodder for their cattle owing to the drought, broke into the pastures of the neighboring community of Ubdina and refused to depart. The gendarmes summoned to eject the intruders were met with a storm of stones and revolver shots. They fired a volley in return, killing two and wounding several others.

In Southern Styria a veritable famine has broken out because of the drought, which has been followed by hailstorms, destroying such crops of potatoes and corn as remained. The government is contributing money with which to relieve the starving peasants.

Meanwhile, in Galicia and Bukovina, in the eastern part of the monarchy, rains and floods have devastated the country. Several persons were drowned and the loss of property has been enormous.

Such abnormal weather has not been experienced before in half a century.

New Jersey Justice Decides That Man's Swearing is not Actionable.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, July 29.—[Exclusive Dispatch.] Police Justice Brax of Orange, N. J., today announced that a man could swear as much as he pleased in his own home, even if it was likely to injure the morals of his own children. He delivered this opinion when Mrs. Katherine Wright appeared before him to complain of her husband, Wilfred Thomas Wright.

The couple live at No. 71 Henry street, and Mrs. Wright says her husband uses bad language around the house. She promptly told her husband that she could not entertain the complaint for the reason stated. Thereupon Mrs. Wright said she was only trying to create a better home atmosphere for her children. She left the courtroom looking discouraged.

QUEENLY SPANKING.

Wilhelmina Is After Castro.

May Send Battleships and Cruisers to Venezuelan Waters.

Blockade of Ports Believed to Be the Object of the Netherlands.

May Have to Buy Warships to Carry Out Plans for Punishment.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, July 29.—[Exclusive Dispatch.] Queen Wilhelmina has decided to pay her respects to President Castro of Venezuela, proposing to dispatch her two best battleships to South American waters for that purpose.

The first word of what the government of The Netherlands is thinking of doing to Castro was communicated to Robert Bacon, acting Secretary of State, this afternoon, by W. A. Roybaards, counselor of the Dutch legation and chargé d'affaires during the absence of Jonkhoeur R. de Maras Van Swinderen, the minister who is away on his honeymoon.

Mr. Bacon is keeping it to himself so far as the outside world is concerned. Oyster Bay being the only place to which it was sent. Mr. Bacon says Mr. Roybaards came here on a flying trip from Manchester-by-the-Sea to talk about a commercial treaty in prospect of negotiation between his government and that of the United States. That is the diplomatic way of allaying curiosity concerning the matter.

It is believed that Mr. Roybaards told the plan of his government to send a squadron of two small battleships, the largest the Dutch navy possesses, and two cruisers to reinforce the Gelderland, although the latter has nothing to fear from anything afloat that flies the Venezuelan flag. But it is impossible for the Gelderland to maintain a blockade of Venezuelan ports. A blockade to be effective in that it must be able and actually stop ships coming out or seeking to enter Venezuelan ports.

No blockade of any character less than that would be recognized by other nations. But the battleships and cruisers ordered to reinforce the Gelderland must arrive there for months, because they are in the Far East on patrol duty around Java. It is probable, therefore, that unless Queen Wilhelmina's government buys ships such as a report from The Hague says she is contemplating, it will be months before Castro is made to feel the pinch of deprivation resulting from inability to have delicacies for his table shipped in from the outside world. Everybody here says he is an epicure, and a good buyer of foreign delicacies, especially French.

The common people of Venezuela would not be seriously affected even by severe blockade, except in one particular. They use a good deal of salt meat and codfish from the United States, as do other inhabitants of the tropics.

The most serious sufferers would be the holders of Castro's agreement to pay a stipulated percentage of his customs receipts to pay off the indebtedness of his government to British, German and Italian claimants.

GUNBOAT ORDERED TO PORT OF HONDURAS.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, July 29.—[Exclusive Dispatch.] The gunboat Marietta was today directed to return to Cuba, Honduras, with all possible speed and remain there until further orders and act under instructions from Drew Linard, American Consul, for the protection not only of the American Consul and American citizens, but also for such other foreigners as may need help.

That action was taken to show President Davila that this government can see no justification for the revocation of the exequatours of Consul Linard and his colleagues.

Officials of the State Department today overhauled every scrap of paper bearing on the acts of the consuls in Cuba during the operations of the insurgents around that city, with a view to making up a complete story as to what took place there in advance of the receipt of a report from Linard, called for yesterday when he notified the department of the action of President Davila.

Ten days ago, it was stated at the department today, Minister Ugarte on behalf of the Honduran government, made what now may be called a complaint about Consul Linard, although this time no attempt was made to do other than to tell Linard to be firmer in his behavior and to advise other foreigners not to take any part in the revolutionary proceedings.

In answer to that Linard sent a mail report in which he said that the attitude of the foreigners had been correct in every particular and that the consuls had done nothing more than

PACIFIC COAST PORTS
MENACED BY DECISION.Efforts Will Be Made to Have Trans-
continental Railroads Reconsider
With Commerce Commission Their
Intention to Give Up Oriental Trade.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, July 29.—[Exclusive Dispatch.] The decision of the trans-continental railroads to abandon the export Oriental trade and a large proportion of the import trade has aroused the Chicago Association of Commerce to make an investigation of the subject.

The management of the association has secured all the papers on file before the Interstate Commerce Commission, and is making a careful examination of the arguments advanced by the railroads in support of their action.

It is possible the investigation of the association may result in an appeal to the commission for a re-hearing in the case, or an appeal for aid in preventing the railroads from going out of that business.

If the association of the shippers decide that the railroads were justified it is possible that the commission will be asked to change its ruling in the case.

On all sides today inquiries poured into the association from the hinterland and great surprise was expressed that the railroads should have taken such radical action. Some of the inquiries came from the Pacific Coast cities, where the shippers will undoubtedly appeal to the commission against the unreasonable action of the new export and import rates, which will be in effect November 1.

Such action, it is stated, would not be altogether objectionable to the railroads because it might result in the commission ruling that the carriers were justified in charging between 40 and 50 per cent. less on exports than on the same articles for domestic consumption at the coast cities. If this should be the result, the carriers would be only too glad to continue in the business, as their revenues on domestic business would not then be threatened.

ADVANTAGE WITH SUEZ.

The carriers insist that in order to compete with the Suez Canal route they are compelled to furnish a better service and to be at liberty to change their rates at a moment's notice. Taking Chicago as the shipping point, for example, the ocean rates out of New York change daily, and hourly, but Chicago shippers, being less than 1000 miles from tidewater, are able to ship in time to take advantage of the lowest rates. On the other hand, it is impossible to ship under similar conditions to the Pacific Coast, the distance being 275 miles. The western roads are therefore under the necessity of being able to change their rates at a moment's notice to meet the competition of the other route.

Again, the preponderance of traffic between the East and the Pacific Coast is east-bound. This enables the railroads to carry oriental exports back at an extremely low rate, rather than at half empty west, and at the same time enables them to develop and promote oriental traffic. In 1905 the Hill roads carried approximately 300,000 tons of this traffic. In 1906 the Hill roads made their domestic Pacific Coast terminal rates the minimum on oriental freight, and the result was that during that year these two roads carried only 50,000 tons.

The roads changed their rates because the commission thought it wrong for the roads to carry the rates to or from foreign countries which were less than the rates to or from the ports of entry or departure.

GLOOMY, SAYS SCHWEIN.

ASSOCIATED PRESS DAY REPORT. SAN FRANCISCO, July 29.—Commenting today, in an interview with the Associated Press, on the statement sent out from Chicago as to the effect on United States trade with the Orient, Australia and New Zealand, by the decision of the trans-continental railroads to abandon a portion of this traffic on November 1, E. P. Schwein, general manager of the Pacific Mail Steamship Company, said the blow will prove almost fatal to the shipping interests of Pacific Coast ports.

"The general effect of this action," said Mr. Schwein, "will be to compel the companies now operating lines of steamers between Pacific Coast ports and the Orient, Australia and New Zealand to abandon the greater part of this trade.

"In place of coming to the Pacific Coast, and being conveyed to interior points and the Atlantic seaboard by the railroads, the merchandise hitherto carried over the Pacific Coast will be carried in foreign vessels from the Orient, Australia and New Zealand to the Atlantic Coast by way of the Suez Canal, and that portion of it which still is brought in through the Pacific Coast ports will be carried in Japanese bottoms.

"Shippers have been notified by the trans-continental railroads that the railroads companies will practically go out of the export and import trade with the Orient and with New Zealand and Australia November 1.

"This action of the railroads is the direct result, we understand, of the decision of the Interstate Commerce Commission in the matter of the publication of domestic freight rates.

"The railroads wanted to be permitted to make secret, overnight rates, to meet the competition of water rates daily, but the commission decided that the inland quotations of their import and export freight rates must be published, and no changes made without giving shippers at least three days' notice. As a consequence, the railroads have published rate sheets for domestic hauls which, in many instances, are equal if not larger for the land haul than those for the combined land and water haul. Shippers will thus be compelled to adopt the longer but far cheaper entire water haul by way of Suez.

The companies now doing business on the Pacific between San Francisco, Seattle and Vancouver and the Orient, Australia and New Zealand cannot accept the water proportion of the old rate left and continue to do business. The Japanese lines can do business under the conditions because of subsidies they receive from the Japanese government. The United States has refused to grant subsidies to the American lines, and as a consequence of this, the action of the railroads, which is the result of the Interstate Commerce Commission's decision in the matter of publishing rates, the outlook for shipping on the Pacific Coast is very gloomy indeed.

"I cannot say at this time what the result will be; it is too soon to make the broad statement that the lines maintained by the Harriman roads through this port and those controlled by the Hill lines through Seattle and Vancouver will be for sale to the highest bidder, but the situation is very

discouraging and the outlook for any betterment of the conditions is not at all bright."

MUST QUIT BUSINESS.

ASSOCIATED PRESS NIGHT REPORT. PORTLAND (Or.), July 29.—"I have had no intimation that the regular steamer lines from Pacific Coast ports to the Orient will be suspended," said W. E. Conner, assistant general freight agent of the Harriman lines here, today, "but I have reason to believe that the outlook for the steamer business is gloomy. Indeed, just a few days ago we received a circular naming proportional rates from Coast terminals, and the shippers will see the strange sight of two sets of rates to Portland, one of which is 25 per cent. lower than the others in some instances.

"The ruling of the Interstate Commerce Commission that we cannot make a through rate to the Orient, but must publish the portion that accrues to the rail carrier, is responsible. That rail quotation will have to be the same to all shippers, and the regular steamer will be at the mercy of the tramp steamers.

"The tramp steamer at Hongkong that has a charter to load and unload at Portland can now bring a half-crate of freight at a little over the actual cost of handling, and get it shipped to East from Portland at the same rate that the regular line can. The regular line keeps a schedule whether there is freight or not, so it may come to it that the regular line will be forced out of business.

"The whole thing is a blow to the Pacific Coast. The Interstate Commerce Commission has ruled that it has no jurisdiction on ocean-going lines, and consequently the steamer companies are in a position to dominate the oriental trade hereafter. If the Interstate Commerce Commission sticks to its ruling."

SEES NO RELIEF.

ASSOCIATED PRESS NIGHT REPORT. TACOMA (Wash.), July 29.—When seen in regard to the report from Chicago in regard to the withdrawal of the railroads from the oriental trade, General Manager Nutt of the Northern Pacific said he had no information on it.

Another high railroad official said: "I have no direct information in regard to the newspaper reports as to trans-continental lines going out of the oriental business. I think it quite possible, however, that such a conclusion should be reached if the Interstate Commerce Commission is so inclined. Through the measure of earnings for the rail carriers on domestic traffic between Pacific Coast points and the interior of the United States.

"It would, in my judgment, be absolutely ruinous to the trans-continental lines to be required to adopt rates on domestic traffic on this basis. The result, I believe, will be to divert the oriental trade through the Atlantic ports, via the Suez route.

"I do not see where any change of conditions would result in a better rate of business for the railroads. The Pacific Coast routing of this business by substitution of Japanese lines for those of American or British ownership, would be no change at all, and through rate conditions, and through rates are absolutely a necessity to the carriers to carry the traffic through the Atlantic ports on this traffic."

PRIDE'S CROSSING (Mass.) July 29.—[Exclusive Dispatch.] The midsummer monotony among the exclusive social set of North Shore country, where, particularly among the younger set, was broken last evening when Theron F. Pierce, Harvard '06, and Miss May Deering of New York, two of the most popular members of the smart set, joined hands and eloped in a very romantic manner.

Just where the wedding took place has not yet been learned, but it is certain that the ceremony was performed with as much secrecy as the elopement. Young Pierce is a son of Henry Clay Pierce, the Standard Oil magnate, and his bride, who is one of the most stunning girls of the summer colony, is the daughter of James A. Deering, the New York lawyer.

The elopement was planned and carried out in much the same manner as that of Miss Violet Pierce, sister of Theron, and James R. Deering, Yale '02, the husband of the bride adopted last March, when they decided to wed. It is claimed here today that the eloping couple have given some assistance by Pierce's sister, now Mrs. James Deering.

ADVANTAGEOUS FEATURES.

Declares Proposed Increase Would Amount to Not More Than One Cent on Each Pair of Shoes and That Laborers Should Favor Plan Because of Good Wages.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, July 29.—[Exclusive Dispatch.] "The railroads have got to have more money until such time as the government will be large enough to meet their expenditures," said H. I. Miller, president of the Chicago and Eastern Illinois Railroad Company, today. "I believe they should get it by increasing the freight rates, because that method of enlarging the revenues will cause the least disturbance in the business world.

"According to the information I have, the advance in rates proposed would increase the cost of a pair of shoes and a suit of clothes less than 1 cent in each case. Surely the laborer can afford that additional expense. It is an insurance of a continuance of the high wages he receives. That is all the advance in rates proposed will mean to the consumer."

In order to pave the way for entry into the railroad business as a boy, Mr. Miller started carrying messages in the telegraph office of the Pennsylvania road at Richmond, Ind. From operator he was graduated into various clerical positions in the transportation department.

In order to get some outdoor experience in a practical way he gave up his job as chief clerk in the office of a division superintendent and joined the engineer corps as a rodman, and later became successively inspector of machinery, assistant engineering and engineering, and general manager of a branch line of the Pennsylvania, general manager of the Rock Island, vice-president and general manager of the Chicago and Eastern Illinois, and then president of that road. Today he is a recognized authority on all branches of the railroad business.

WHO SAID "BOTTOM FALLEN OUT?"

Los Angeles Still Leads—She Leads the Country and
the World.

The following list of the principal newspapers in large cities of the United States shows The Times still far in the lead of all in volume of advertising printed for the month of June, 1908:

	Cpls.
Los Angeles Times	9424
Brooklyn Eagle	2858
Chicago Tribune	2791
New York World	2776
St. Louis Post-Dispatch	2525
Kansas City Evening Star	2154
Detroit News and Sunday News-Tribune	2143
Minneapolis Journal	2113
Portland Oregonian	2111
Philadelphia Inquirer	1543
Baltimore American	1806
Cleveland Plain Dealer	1708
Cincinnati Enquirer	1589
St. Paul Dispatch (six days)	1469

The advertising volume of The Times fell off for the month of June, 1908, as compared with the same month of 1907, about 20 per cent., but in the face of this loss The Times still contained 28 per cent. more columns of advertising than any other American newspaper, the other newspapers having lost business in about the same ratio as The Times.

The croaker who shrieks that the bottom has fallen out of things commercial in Los Angeles and the Pacific Southwest, if he would see things as they are, has only to peruse the advertising columns of The Times, crammed with live business announcements which show a most healthy activity and progress. With the news columns telling of new enterprises and increased production in many fields, millions to be spent for good roads (if the bonds carry) and the Los Angeles aqueduct, it is no wonder that a Los Angeles newspaper still leads the world in volume of advertising business.

No two other Los Angeles papers combined printed as much advertising in the month of June as did The Times.

The local "twilight sheet" which was wont to shout so loudly (not to say so stupidly) about "advertising that grows," seems to be singing low these sad summer days. But what of it? Los Angeles still stands proudly at the front.

The Times will spread your glory over this fair terrestrial ball! The leader of the nation, the beater of the globe.

One more star of supremacy shines on your star-spun robe!

GARDUARDS GIVE ORGAN.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, July 29.—[Exclusive Dispatch.] Northwestern University is to have a \$5000 pipe organ as the gift of the Japanese government, and an attempt on the part of the alumni to express their appreciation of the recent donation of \$150,000 for a new gymnasium by James A. Patten.

WAR AMONG OWLS.

(BY DIRECT WIRE TO THE TIMES.) CHICAGO, July 29.—[Exclusive Dispatch.] "Deposed" officers of the Order of Owls have called upon the Chancery judges of the Superior Court to enjoin their rivals from holding themselves out as the properly-elected officials, or from in any way imitating the ritualistic work of the order or from changing the name of the order to the American Order of Owls.

TAFI OFF TO HOT SPRINGS.

Candidate Will Rest Until Campaign Opens.

Has Quiet Day After Formal Notification.

Miscellaneous Shoots at Boat, but Misses Nominer.

(ASSOCIATED PRESS NIGHT REPORT.) CINCINNATI, July 2.—William H. Taft, accompanied by Mrs. Taft, left Cincinnati at 5:10 o'clock tonight for Hot Springs, Va., where they will remain until the opening of the campaign the first week in September.

At that time Mr. Taft will return to this city, where it is his present intention to remain until election day. The day following the notification ceremony was one of comparative quiet for the candidate. He had an extended conference with Arthur I. Vorys, his chief of staff, touching many minor matters in connection with the Ohio situation. He also saw State Chairman Williams and Elmer Dover, secretary of the National Committee.

He was made a member of the International Brotherhood of Steam Shovel and Dredgesmen, and late in the afternoon went in an automobile to the home of his father-in-law, Mr. Heron, where Mrs. Taft spent the entire day.

NO IL-EFFECT.

Mr. Taft said he felt no ill-effects of the speech-making exertions yesterday, but will go back to the mountains with some relief for a month of comparative quiet and golf. In accepting membership in the shovelers' organization Mr. Taft had this to say regarding labor:

"I am glad to have at my hands the expression of confidence in my efforts to do justice while I was in office. The work upon which many of your members are engaged is of great importance and I am glad to have my capacity or another, endeavoring to facilitate the greatest constructive work of modern times, adds a great deal of interest to me in the commitment you pay me today."

"I am especially gratified because you evince a liberal and impartial view in thus tendering this compliment, because in the administration of work on the isthmus I did not always decide in favor of your contentions. But when I decided contrary to the claim which was made by you, I tried to give reasons which, I think by your action today, were convincing of my desire to reach a just conclusion."

EFFORT TO BE SQUARE.

"President McKinley had the honor to be an honorary member of the bricklayers' union; President Roosevelt has the honor to be an honorary member of the freemasons. With such examples as that and with the precedents in my own life in becoming an honorary member of the union of useful organizations, I cannot see the slightest objection to my accepting this compliment at your hands, which I appreciate highly and which I shall always cherish as one of the evidences that there are some men whom I have convinced through my official or unofficial efforts to do the square thing for everybody."

It became known publicly today that the steamer Island Queen, which last night conveyed Judge Taft and a distinguished party, including the Notification Committee, up the Ohio river, was fired upon by an unknown man on a shanty boat moored on the Ohio side of the river, opposite Dayton, Ky. Several shots from the shanty boat hit the boat, but did not seriously injure any one.

WOMAN IS HIT.

Mrs. Charles Russell of this city, who was standing on the deck directly over Mr. Taft, was struck by several of the shots. Mrs. Russell was hurried into the cabin, where it was found she was not seriously injured. One of the shots had penetrated the skin over her left eye and another had struck her on the chin.

The distance from the shore was so great that the charge of shot had almost spent itself when it reached the boat. A man standing by the side of the boat also was hit by one of the shots, but he was not hurt. The officers of the boat stated that they would make an investigation in order to learn the identity of the miscreant who fired the gun.

C. B. Russell said today: "I was standing at my wife's side, but none of the shot struck me. It was lucky we were not closer to the Ohio shore. I saw the man with the gun at first thought him merely an enthusiastic celebrator. I do not like to believe that the shot was fired with malicious intent and it may have been only chance that the spent charge struck just below where Mr. Taft was sitting."

ALREADY BUSY.

MUST WORK AS UNIT FOR TAFI.

HITCHCOCK WILL SEE THAT THE CAMPAIGN IS PUSHED.

No State Will Be Allowed to Manage Its Own Campaign, but All Will Be Harmonized in Order That Laborers for Republican Victory Will Be More Effective.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, July 2.—(Exclusive Dispatch.) Frank H. Hitchcock, the "G. O. P. hustler," the man with the smile and the get-up, blew into Washington today and will be gone again tomorrow, but during a few brief minutes he let it be known that the wheels are already grinding and that the campaign for his candidate, Mr. Taft, is on.

One of the interesting features of the campaign which is mapped out, is the manner in which it will be carried on. No state will be permitted to manage its own campaign individually. It will be a campaign of conferences. They must come to the front every week or so and tell exactly what they know about the conditions in their territory. They may suggest what should be done to remedy any difficulty which may have presented itself, but the great "big chairman" and his committee will be the doctor.

Hitchcock and his men will write the prescription and then hustle the state managers back to administer the medicine. He is mapping this plan out on the idea that many a state or dis-

trict has been lost by over-confidence or bad judgment. Hitchcock does not mean to say that he knows more than anybody else about the situation, but he believes that should work out a scheme whereby all of the state managers will work as a unit it will be more effective than should he leave the work in certain states to certain leaders. That accounts for Mr. Vorys retiring from the management of the Ohio campaign. Should Vorys have been permitted to manage the Ohio campaign, leaders from different states throughout the country would have been popping up asking for permission to handle the G. O. P. affairs in their states.

Mr. Hitchcock will be in Chicago and the west more than the east. The fight is far west of the Ohio state. He will have a half dozen important stations up and down the Pacific Coast. These stations will distribute literature simultaneously with the New York and other eastern stations.

The big distributing station will be Denver. This city will have a member of the executive committee in charge. Los Angeles, San Francisco and other Pacific Coast cities will be supplied with literature from Denver but all of these hard working men will report to Mr. Hitchcock at Chicago or New York. If there is anything wrong he will call them in, or hustle a man out to see what the matter is.

There is no doubt but that Hitchcock is a hustler. Everything in his office goes like clockwork. Mr. Taft has a reputation in Washington of being the hardest working of any man who ever served in the cabinet but he has a manager for his campaign who is hustling him like a self-styled player as far as work is concerned.

are being made to his appeal to the democratic newspapers of the country to open subscription lists for campaign contributions. He said today that the fund already was a considerable one and was steadily growing. Charles A. Bryan today retorted to Gov. Haskell, treasurer of the National Democratic Committee, the sum of \$150,000, given by 101 contributors to the campaign fund. Gov. Haskell telegraphed that twenty-four hours after his selection as treasurer had been announced \$150 was contributed by sixty-two local residents. This sum he stated, came without solicitation.

Although no time is fixed, this action by the government will be taken care of the financial obligations of the Standard Oil Company of Indiana and that an application for re-argument of the case and a motion for a modification of the opinion would be submitted to that court.

Atty-Gen. Bonaparte called to the conference. Solicitor-General E. M. Lord of Washington, Edwin M. Sims of Chicago, United States District Attorney for the northern district of Illinois, James Wilkerson of Chicago, Mr. Sims' first assistant, and Frank B. Kellogg of Minnesota.

In discussing the various aspects of the case Atty-Gen. Bonaparte took occasion to refer to the report published in certain newspapers to the effect that Judge Grosvenor, the son-in-law of John D. Rockefeller, had given or was to give, a dinner to the Attorney-General, Mr. Rockefeller and Judge Grosvenor.

Mr. Bonaparte said in this connection: "I have not the pleasure of Mr. Grosvenor's acquaintance. I did not know that Judge Grosvenor was here until after he had left, and the dinner is entirely a figment of a lively imagination. During the conference on several must expect stories of this character and it would be unnecessary and perhaps indecorous to properly maintain a silence until tomorrow, but the main part of the conference was finished today."

NYE SAYS STATE IS CHEATED. (ASSOCIATED PRESS DAY REPORT.) SACRAMENTO, July 2.—State Controller Nye, at the meeting of the State Board of Equalization today, informed the representatives of the Pullman Car Company, who were heard by the equalizers, that in his opinion the Pullman people have been cheating the state for years. He said that the Pullman company had been paying the state a sum of money for the use of the Pullman cars, but that the Pullman company had been cheating the state by not paying the full amount.

RAILWAY FINANCE INQUIRY.

(ASSOCIATED PRESS NIGHT REPORT.) ST. PAUL, July 2.—The first part of today's session of the Northern Pacific railway hearing case was taken up in waiting for the state's attorneys to present their exhibits.

The only exhibit developed was that the state had carried through the reorganization of the railroad in 1894, received from the sale of stocks, bonds, etc., in the new company, \$117,000, while it cost them \$95,000 to carry out the reorganization. The state will now endeavor to show that this amount was taken to the state railroad commission.

INITIAL TRIP MADE.

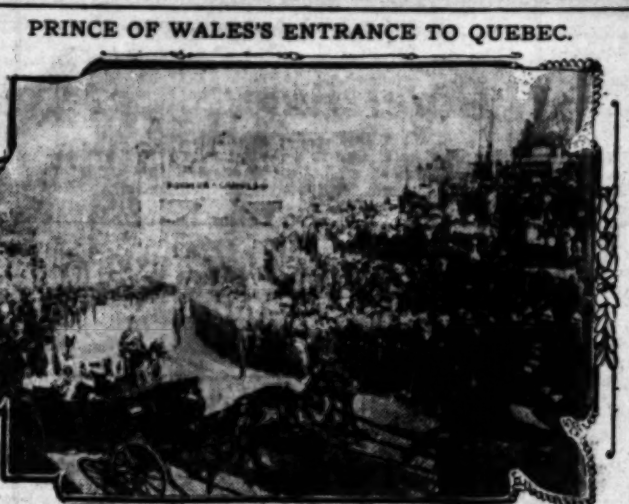

ST. PAUL ENTERS BUTTE. (ASSOCIATED PRESS DAY REPORT.) BUTTE (Mont.) July 2.—At 3 o'clock yesterday afternoon the first train to be run into Butte over the tracks of the St. Paul Railroad, pulled into the Butte, Anaconda and Pacific depot, after a pleasant and uneventful trip from Miles City. It bore a party of St. Paul officials.

Railroad Property Transferred.

VANCOUVER (B. C.) July 2.—All the railroad and land and foreclosed holdings of the Vancouver and Yukon Railroad in Vancouver and New Westminster, and the railroad line connecting the two cities, have been formally conveyed by the Vancouver, Westminster & Yukon Railroad Co. to the Vancouver, Victoria & Eastern Railway, according to a conveyance signed by the latter company's attorney.

Will Fight Railroads' Suit.

SAN FRANCISCO, July 2.—United States Dist. Atty. Devlin has received word from the Interstate Commerce Commission in the injunction suit brought against the Southern Pacific and the Oregon and California railroads in the rough grain fir-lumber rate case. It is understood the commission will appoint a special legal representative to assist in the defense.

Wise Talks By the "OFFICE BOY."

I heard a man say, "Heaven is a man's reward." I am a member reading about a man who answered an advertisement which offered to tell "you" how to save gas bills upon the receipt of a dollar. The answer was "Pasta them in a book." But you file your receipts bills and you look to see if the merchant has figured out the 25 per cent. He claims he's giving to his customers? Did it ever occur to you that only that which is honestly gotten is gained? About the only honest politician you can find nowadays is the one who will say "I am a fool." When you hear a lot of men saying "Turn the rascals out!" they only want to put another rascal in. The working man fights his boss and the boss fights his workmen, and they are constant discord. Still, the man can't succeed without the co-operation. Every department manager is given a certain amount of capital to run his department. He is charged with the duty for the money, then at the end of the season, if he has any net profits, he is given a certain amount of capital to run his department. HEAVY HITTERS HANDICAPPED.
BROOKLYN, July 29.—Handicapped by the enforced absence of Jordan and Lummie, the heavy hitters, both of whom are on the sick list, the Brooklyn had no chance against Pittsburgh today: Score:
Pittsburgh, 5; hits, 9; errors, 1.
Brooklyn, 0; hits, 2; errors, 2.
Batteries—Lefield and Gibson; Wilhelm, Holmes and Bergen.
Umpires—Rudderham and Emalle.

BROWN INVINCIBLE.
[ASSOCIATED PRESS NIGHT REPORT.]
BOSTON, July 29.—Chicago shut out Boston in the first game of the series today, 6 to 0. The batting of Tinker was a feature. Score:
Chicago, 6; hits, 12; errors, 0.
Boston, 0; hits, 4; errors, 1.
Batteries—Brown and Kling; Flaherty, Boulier and Bowerman.
Umpire—Hagler.

WINNING BY A HEAD.
[ASSOCIATED PRESS NIGHT REPORT.]
NEW YORK, July 29.—New York defeated St. Louis in an uninteresting game today. Score:
St. Louis, 0; hits, 3; errors, 2.
New York, 1; hits, 4; errors, 1.
Batteries—Salley and Ellis; Mathewson and Breckinridge.
Umpire—Johnston.

REDS EASY WINNERS.
[ASSOCIATED PRESS NIGHT REPORT.]
PHILADELPHIA, July 29.—Cincinnati won easily from Philadelphia today by timely hitting coupled with the home team's errors. Score:
Philadelphia, 4; hits, 6; errors, 1.
Cincinnati, 2; hits, 8; errors, 4.
Batteries—Spade and Schell; Corridon, Morgan and Jackkitch.
Umpire—Klem.

AMERICAN LEAGUE.
RUBEN RUTS IT ON.
[ASSOCIATED PRESS NIGHT REPORT.]
ST. LOUIS, July 29.—Rube Waddell struck out sixteen Philadelphia players this afternoon, equalling the American League strike-out record and beating his former team-mates, 5 to 4. Score:
St. Louis, 5; hits, 9; errors, 1.
Philadelphia, 4; hits, 9; errors, 4.

Batteries—Waddell and Spencer; Vickers, Dygest and Schreck.
JOHN DROPS CLOSE ONE.
[ASSOCIATED PRESS NIGHT REPORT.]
CLEVELAND, July 29.—Boston made it three out of four from Cleveland, winning in the eleventh inning today. Score:
Cleveland, 2; hits, 8; errors, 4.
Boston, 4; hits, 7; errors, 4.
Batteries—Joss and Bemis; Cicotte and Carrigan.

AFTER EASTERLY.
BERRY WILL NOT SELL.
[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, July 29.—[Exclusive Dispatch.] A tempting offer for Catcher Bob Easterly of the Los Angeles club, to report immediately, came to Manager Henry Berry today from (Harry Herrmann of the Cincinnati Reds. Berry turned the offer down, however, wiring Herrmann that the clubs of the Coast League have agreed that they will not dispose of players for immediate delivery.

"I will probably sell Easterly at the end of the season, but we need him now," said Berry. "Chance of Chicago has first call on him, but if he doesn't want him, Cincinnati can bid. I have several men who are wanted in the East. I also promised Dolly Gray that he could go East next year, but I want to see if he is hooked up with a winning club and not one where his pitching will be asked."

The Oakland bunch certainly has a number of new faces these days, players with whom the fans are not acquainted. In addition to Christman, the Texas twirler, Van Hatten is giving a chance to Tischer, who pitched bush ball in the East, but the last year or so has been an electric ball pitcher. He also has Symons, who pitched a few innings today, and Houston, a Portland boy, who is an infielder. If it is decided to pitch Houston, he may be given a chance to hold down third base.

In all probability Danny Long will

represent the Pacific Coast League as its scout. President J. Cal Ewing said today he favored Long, because of his experience and his knowledge of ball players, but said it was up to the league directors to decide. This must be done at once, as it is time for the scout to be at work. It is the idea that players so drafted will belong to the league and they will be appointed as needed.

"The new clubs," said Long, "will need some men, and we must divide with them. That doesn't mean giving them our cast-offs, but being fair and square in the deal."

OUTLAW LEAGUE.
TOO HOAGISH FOR FRISCO.
[ASSOCIATED PRESS NIGHT REPORT.]
SANTA CRUZ, July 29.—The local State League defeated San Francisco today by a score of 9 to 4. Score:

HOWER TROPHY CONTEST ENDS.
Two Pierce Roadsters Alone Left in Running and Today One Will Retire.

[BY DIRECT WIRE TO THE TIMES.]
BROOKFIELD SPRINGS (Pa.) July 29.—[Exclusive Dispatch.] The annual tour of the American Automobile Association came to a close here tonight when the two Great Arrow runabouts in the contest for the Hower trophy reported here alone and with no competitors. The Premier which yesterday broke its axle was out and the two Stoddard-Daytons withdrew this morning, one with a broken frame and the other in difficulties. The Great Arrow, driven by Edward Retting and John Williams added one day to the score and came through today over the hardest road ever encountered, in record time.

Tomorrow morning, by consent, Retting will check out alone and the trophy offered by Chairman Hower will go to Charles Clifton.

Thomas Car Breaks Down.
PARIS, July 29.—The American car in the New York-to-Paris race broke down near Hanover, according to reports received here, and is making slow time on its way to Paris. It is expected to arrive here tomorrow night.

Athletes in Paris.
PARIS, July 29.—Seventeen American athletes, who took part in the Olympic games in London, arrived here tonight with Trainer Murphy. They are entered for the games to be held here on Saturday and Sunday. The Americans include Carpenter, Smithson and Hillman.

After Big Gun.
ASTORIA (Ore.) July 29.—The Regatta Committee, anticipating the coming of both Presidential candidates to the West during the coming month, has telegraphed both Mr. Taft and Mr. Bryan to visit Astoria during the annual regatta and deliver addresses.

SPANISH QUEEN WINS BIG RACE.
Great M. and M. Stakes Are Fought for Fiercely.

Denver Horse Might Have Lost With Old Ruling.

Exceptionally Fast Racing Seen by Thousands.

[ASSOCIATED PRESS NIGHT REPORT.]
DETROIT, July 29.—With three out of six starters winning heats, the third renewal of the Merchants' and Manufacturers' trotting stake proved one of the hardest fought since the institution of the event in 1899.

Spanish Queen, owned by George H. Estabrook, of Denver, won first money under the five-heat plan of racing, although the old fashioned system would probably have given the honor to Alceste, driven by Geers.

Fully 12,000 persons saw the exceptional work on the fast track. Fleming Boy, in the stable of Dean, whose entry won the Chamber of Commerce stakes, was a strong favorite. Fleming Boy led all the way in the first heat, finishing an easy winner, while Spanish Queen barely saved her distance after a break.

Next time Spanish Queen acted finely and collared Fleming Boy at the three-quarter mile and left his feet in the stretch, Spanish Queen jogging home.

The third heat was a repetition. Fleming Boy was leading past the three-quarter mile and left his feet in the stretch, Spanish Queen jogging home.

Fleming Boy showed the way in the fourth mile, breaking again in the stretch, and this time when Spanish Queen came by she was attended by Alceste, that mare beating her by half a length.

Spanish Queen took the lead at the half in the fifth heat as Fleming Boy was tired, and again in the stretch Alceste rushed and beat her in the last few yards.

Under the five-heat rule Spanish Queen, standing best in the summary, took first money, and Alceste second. There were checks for the last heat winner, also for Spanish Queen and

It was Ben's battle from the start, but the decision was given after he already saved Flynn, who was hit by a Jones hammer, admitted the error, but which was so feeble that he could hear it above the uproar, and he allowed the fight throughout with ferociousness, both in training and in the ring. In the fifteenth round, when Ben's hammer blows began to tell, and when the referee saw that he went down.

After the fight, Bob Harris, of the defeated scrapers, was the winner. An insurance man changed hands on the deal.

THE CITY IN BRIEF

TO THE POLLS.

"Good roads"

NEWS AND BUSINESS.

Thirty-five Sign Pledge.

An open-air Murphy meeting was held at First and Main streets last night. Thomas Murphy spoke, and Francis Murphy sang. Thirty-five persons signed the pledge.

United Brethren Meet.

The annual convention of the United Brethren met yesterday at the Elms. Its opening day being devoted to the interests of the denomination. The regular work of the convention will begin this morning. About sixty delegates are in attendance.

Friendliness Appreciated.

Secretary Wiggins of the Chamber of Commerce has received a communication from the Chamber of Mines of Mexico, stating that its members will do everything possible to prevent legislation that may be unfavorable to persons owning mines in that country. While no hostile legislation is anticipated, the friendly attitude of the industrial mining association of Mexico is appreciated.

Artificial Limb Accident.

A man with an artificial limb met with an unusual accident near Seventh street and Broadway last evening. His good lower member slipped on a banana peeling, and he fell heavily to the pavement. His artificial limb broke, causing a painful but not serious injury to his partly-missing member. The manager of the White garage happened to be near at the time and assisted the unfortunate man to a hotel, and later sent him home in an automobile.

Bible Conference.

The summer Bible conference, now in daily session at the Bible Institute, Third and Main streets, has proved even more successful than its organizers anticipated. It has an attendance each forenoon of between seventy-five and one hundred students, who come from all the surrounding towns. Today the programme is as follows, beginning at 8 o'clock a.m.: Vocal class, L. L. Todd, "Sunday-school Methods," Rev. G. O. Butterfield, "How to Study the Bible," Rev. R. A. Hadden, "The Cross, Rev. W. L. Tucker. No sessions of the conference are held in the afternoon.

Brass Band Poor Bat.

At the meeting of the Federation Club yesterday, J. Landroth of Hawthorne, made a talk in which he told them how to make a town go dry. His straight tip was to "cut out" the brass band and make it "cut" for the game. Further, he advised that it is a splendid scheme to fill the newspapers with entertaining stories of what the saloons are doing to avert the possible overthrow of their business, but not to bother writing about what is done in the other direction. He declares that seven men, acting under a committee of 100, routed every saloon out of business.

San Diego Harbor Improvements.

Proposed repairs to the fortifications at the entrance to San Diego harbor has been the subject of investigation on the part of Capt. A. A. Fries, Corps of Engineers, U.S.A. A wharf for handling torpedo supplies is also planned. The government Board of Engineers at Washington has approved Capt. Fries' recommendations for firing the entrance to the bay, but work cannot be prosecuted until Congress makes a special appropriation of \$15,000. To facilitate the movements of vessels in reaching the coaling station, the middle basin must also be dredged.

Y.M.C.A. Taking Possession.

The physical department of the Young Men's Christian Association was removed yesterday from the temporary quarters on Spring street to the new building on Hope street, and it is now being moved to the new executive offices from the Broadway temporary quarters on next Wednesday morning. All association activities of every kind will be suspended during the month of August, and the time devoted to furnishing the new building and getting in shape for the public opening on September 1. This, of course, does not mean that the membership campaign will be suspended for it will be pushed with all vigor. Up to last night more than 6000 names of prospective members had been sent in by the canvassers.

Vernon Boys Game Losers.

The Baraca, bay of the Vernon Avenue Methodist Church were recently defeated by the J.O.C. girls. In a Sunday-school membership contest, the penalty of defeat being a dinner for the winners. To show that they are no "light wads," the boys will discharge the pleasant penalty by setting up a banquet with orchestral accompaniment, at the Hotel Westminster tonight. There will be few special guests, among them Rev. W. A. Brown, pastor of the Vernon church, and in all a party of about fifty will partake of the hospitality of the gamblers. As they have scheduled fifteen after-dinner talks, that portion of the feast promises to be a big feature.

Youngsters Burglars?

Julio Martinez, a 10-year-old Italian youngster, was arrested last night and charged by the police with having been caught in the act of burglarizing the produce stall of Thomas V. Davlanth & Co., at the Los Angeles market last night shortly after closing hours. Martinez had three accomplices, the police say, all of whom escaped. The boys were holding a push cart with fruit and vegetables. The cash drawer had been emptied, though little was secured. The youth was taken to the Detention Home.

Bryan-Kern Club.

The Seventh Ward Bryan-Kern Club was organized last evening at a meeting of Democrats at No. 561 Central avenue, at which G. McDonald presided. Addresses were made by Anthony Schwamm, G. Crouch, Robert Loucks and C. Johnson. The following officers were elected: President, Thomas McGinley; vice-president, H. Kearney; secretary, John Keane; treasurer, W. Butler. Mr. McGinley, H. L. Washburn and J. S. Allen were named as a committee to secure headquarters. Mayor Harper will be asked to talk at the next meeting.

SLICK TRICK FOR DIAMOND.

GEM GENUINE, "PAPA'S SON" IS A COUNTERFEIT.

Young Man Pretends to Be Son of Wealthy Manufacturer and Walks Off With Ring While Jeweler Waits in Fins Home—Dealer Turns Detective With Good Results.

When a young and well dressed man entered the store of Jacob Macowsky, proprietor of the Angelus Jewelry Company of No. 217 South Spring street, at 4 o'clock Tuesday afternoon, and asked to see a diamond ring, he was shown a tray of costly gems. The young man deftly fingered the diamonds and picked one in a gold setting valued at \$700.

With the sparkling gem on his finger the fellow, it is claimed, said he was the son of Maj. E. F. C. Klokke, of No. 2108 South Figueroa street. This was satisfactory so far as it went, and when the young man asked the jeweler to accompany him "home," in order that he might show the prize to his mother before making the purchase, Macowsky jumped with alacrity into a waiting automobile and the two were driven to South Figueroa.

At the Klokke residence the dapper young man led the way and Macowsky followed meekly. The jeweler was the picture of confidence, and the young man lacked not for assurance. He kept up a running conversation, on politics, good roads, and the prospects of Bryan, until Macowsky was charmed.

The maid answered the door and the pseudo son of the rich man brushed past the girl into the parlor, asking for "The Major" as he took a seat. The girl bustled out and left Macowsky and his customer in the handsome parlor of the Klokke home.

Events had moved rapidly since the picture of confidence, and the young man had entered the Spring street jewelry store half an hour before Macowsky had no intention of calling on Maj. Klokke. Now he was ensconced in an easy chair in the front room while opposite him was "the son" of the rich man, wearing his (Macowsky's) handsome diamond ring.

Macowsky made smiling assent when the young man accused himself "for a moment." He did not return. Instead, he passed through a side door, gained the street and was gone, with the diamond.

The Spring street jeweler came back to town in a hurry, minus his ring. Sorely grieved at his loss he determined to make a search. He had a good description of the man as he had been with him almost an hour.

After two hours of careful searching, during which Macowsky received many ugly stares in return for his anxious glances, he thought he saw this man at Third and Main streets. So confident was he that he pointed the fellow out to the crossing officer there and the man was arrested.

At the police station the prisoner gave the name of Joe Den. He is said to have also used the name of Joe Desmond. The police claim to have found a tag on him for the diamond ring which they saw he pawned for \$60. The authorities say Den or Desmond has made a complete confession.

MUSIC AND THE STAGE.

Belasco received a tele-
gram from his brother David
asking him to go to London in
for three months' stay, to
attend the staging in England of
"The Golden West" and
"The Runch." The elder
offered the California man his
terms, and begged compliance
on this not as much as a per-
sonal compliment, said Mr. Belasco
"as a tribute to the general
of our two recent produc-
tions in Los Angeles. My brother is
a very good actor, and a famous pro-
ducer, and one of whom, at this sea-
son of the year, would be grateful
for an offer. Nevertheless, the
of their two productions have
been sold clear across the country,
for this reason, I think, he has
not come."

Mr. Belasco is not going
to his two California theaters,
and house and the Alcazar of
Pasadena, will require all his time
in the future.

Skirts to Measure \$8.50 Offer Closes This Week

Hundreds of women have taken advantage of our proposition to make to their measure tailored skirts at the very low price of \$8.50. We shall close the offer this week, so it will be well for you to make selections before Saturday noon. If you've any notion of having a new and stylish skirt made to order.

We give you a wide range of seasonable materials to select from; representatives from all parts of the Wool Dress Goods Section are here; both plain and fancy weaves; light, medium and dark colors; you may choose practically any style of skirt you fancy; out-of-town customers may be accurately fitted by means of our self-measurement blanks, and we will gladly send samples to choose from. Remember, however, that the offer expires this week; skirts made, complete, for \$8.50. Special sale of all remnant lengths of linings at HALF.

85c to \$1.00 Colored Silks 50c Yd.

Don't get the idea that these are old goods which must be forced out at a low price; they are all this season's stock, and reduced simply because they represent broken lines, which we cannot tolerate in regular stocks: Rough pongs, plain colored taffetas and some stripes and check silks; values included between 85c and \$1 a yard; on sale Thursday and Friday at.....50c

New Belt Buckles and Beltings

Top liners may go up, or top liners may go back, but the greatest rejoicing of all comes when a tidal wave of good fortune sets in for one of the faithful little "lower-downs."

This is just what happened yesterday, when Mrs. Willard J. Doran of West Twenty-seventh street presented Katherine Verone with a new year's subscription, and six yearly renewals, which she had gathered for this deserving young worker.

"It nearly took my breath away," said Katherine, "and I was so happy to have all at one time. Then I thought right away of what one of the last year's contestants told me. It's a fine secret to remember, for she said that when you grow the most discouraged something nice always happens."

This is especially the case when one has worked as faithfully as Katherine has done since the beginning of the contest. She was the youngest member of the graduating class at the Thirty-ninth street school in June, and had received a gold medal for perfect spelling before coming to Los Angeles to live.

Katherine is longing for a musical education and hopes some day to become a singer. She is French by descent, and a number of the prominent French residents of this sunny new France of Southern California are greatly interested in her success.

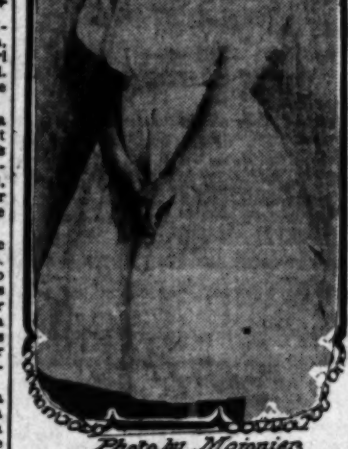

The new annual of yesterday which

filled full the young girl's cup of happiness came from E. S. Ives of Tucson, Ariz. Just think if that Tucson girl had gone after that new annual, Katherine is close on the heels of the high sixteen today.

One of the little Catholic girls had a birthday anniversary yesterday. It was that dear Celeste Benton, who is trying for the scholarship in the Immaculate Heart College of Hollywood, that beautiful institution presided over by the good sisters of the Immaculate Heart order.

Celeste was fourteen years of age yesterday and John E. Stearns of No. 27 St. James Park was the one who gave her the birthday gift that she is laughing over in the picture, just for her picture in the paper, and I liked it so much that I decided to work for her, and maybe next year I can go in for the contest myself.

A number of fine gains were registered yesterday by those steady scorers who are as regular as clockwork—Miss Robinson brought in nearly 2000 points, and Mary Pearl Pottol

Celeste Benton, yesterday's birthday girl, who received a present of a thousand points.

of the Soldiers' Home is one of the same stamp. These girls are close together in the race, and both added goodly numbers to their scores yesterday. Laura was sorry to not be with the Uncle Sam Post and Corps last Monday evening, when she had been invited to be present at their meeting.

Leon Riesenweber, that small wonder of the contest, who has won points better of this morning, and Myrtle Hall, the Methodist maid, had a gain yesterday of nearly 2000 points while the Hollywood girl, Winifred Spencer, who was supposed to be ill, walked in as brisk as you please to contradict the false report and hand in 1200 points. The mail bag brought in 1100 points for Ida May Benjamin of Covina.

THE PRIZE. Besides the valuable scholarships for which the young people are working, the Times offers fifteen cash prizes for those making the highest scores next to the top liner, who will receive the prize piano. The cash prizes totaling \$1200 are arranged as follows:

No. 1	\$200
No. 2	\$150
No. 3	\$125
No. 4	\$100
No. 5	\$75
No. 6	\$50
No. 7	\$25
No. 8	\$25
No. 9	\$25
No. 10	\$25
No. 11	\$25
No. 12	\$25
No. 13	\$25
No. 14	\$25
No. 15	\$25

The first prize to be awarded to the winner of the contest in addition to a choice of scholarships is a splendid Fairbanks piano from the Southern California Music Company, valued at \$400. It is a beautiful instrument of superior construction, handled by an old and reliable company as a special feature, and is doubly guaranteed. It is known among musicians for its exquisite tonal qualities and responsiveness.

Yes—It's Maple

"Do you really cook Mapl-Flake in pure maple syrup?" ask numberless correspondents.

Yes, in pure Vermont Maple. We are the largest buyers of it. We use it mainly for the children's sake.

But that is only one reason why Mapl-Flake is so good.

This is another:

Our wheat is steam-cooked for six hours. Then it is cured for days.

Then each separate berry is flaked so thin that the full heat of our ovens can attack every atom.

Then those thin flakes are baked for 30 minutes in a heat of 400 degrees.

That heat makes the wheat digestible. It separates the particles so the digestive juices can get to them.

And that is essential.

Flakes that look the same can be made in one-fourth the time.

But a food that's all food—a food that all digest—must be prepared in our way.

That's why Mapl-Flake stands to-day where it does.

Fads come and fads go. But, in the long run, the food of real merit will win.

Those who change for a time will come back to it.

For wheat is the food of the ages. And Mapl-Flake is wheat prepared in the most scientific form.

Mapl-Flake

The Food That's All Food

This is the ideal food for hot weather.

Mapl-Flake has the minimum of heat-producing elements. Meat has the maximum.

Summer breakfasts should consist of nothing but Mapl-Flake and fruit.

These are the days to have a cereal so good that your people will want it often.

And to have a cereal so nourishing that people will want to eat it.

There is only one such food. Please tell your grocer now that you want it. We shall not need to urge you again.

of the foothill section had the same increase. Miss Pottol is sweeping her district clean, and her winning manners and delightful personality are adding interest to her cause every day.

Watch Ramona Carter! She is beginning to score over 1000 points a day, and if she keeps that up to the end of the contest, there will be decidedly interesting for Miss Ramona. She scored 1000 yesterday, which is just 60 more than she has promised for each day this week.

Grace Tyler is evidently quite over her attack of measles, for her points are arriving in bunches of 180 each, just as they did at the beginning. Soon we shall have a picture of this splendid young girl to show to the many people who have watched her campaign with keen interest.

Gladys Hille of Santa Barbara is another champion worker who believes in steady scoring, and Laura Easton

THE OIL INDUSTRY.

WHITTIER FIELD

IS GROWING.

MURPHY AND CENTRAL REACH IN DEVELOPMENT.

Former Gets Three-Hundred-Barrel Well Below Two Thousand Feet—Latter Runs Five Strings in Addition to Its Newly Finished Deep Producer.

While the Central Oil Company has been developing the deeper sands in the south end of Whittier, the Murphy, whose lands lie just east, has been exploring the hitherto undeveloped eastern part of its holdings. Within the last few days the Murphy well No. 22 has come in and is pumping 300 barrels daily of 22-gravity petroleum. The depth is not made public, but it is stated that it is below 2000 feet.

This well is about a quarter of a mile southeast by east of the older development. Two others are being sunk right around it. The oil, while lighter than most of the Whittier product, is heavier than that found by the Central in its 2000-foot well just being finished. For a long time the Murphy has been producing a light petroleum of about this gravity. The location means a considerable field extension.

In the Coyote hills, between Whittier and Fullerton, two Murphy springs are busy. Well No. 3 should be finished before long. Numbers 1 and 2 are yielding well, considerable water, but not enough to cripple them seriously. The gas pressure is very strong.

Besides its 2000 hole, with 800 feet of oil sand, the Central has five strings in operation just on the north edge of where most of the wells are located. One of these is down 2700 feet, another 2000 and the others less. The development is far in excess of any seen in Whittier in years. The output for the year is likely to show a heavy increase in Whittier, although, of course, it will be some time before any of the new wells are able to ship, so that their addition to production will be curtailed by their coming late in the year. For 1903, however, the Murphy well will be greatly enhanced.

The well sunk by the Central on the northern end of its holdings last year proved the presence of oil there, although the hole was lost through an accident.

The Central has paid dividends steadily for several years, all through

\$2,000 For Short Stories

SUNSET is in the field for short stories—the best short

stories of western out-of-door life that can be written.

The attention of all writers is called to this announcement, which means that between this date and July 31 cash prizes amounting to \$2,000 will be paid for fifteen stories of the character desired. This amount will be divided into the following prizes: First prize, \$500; second prize, \$250; third prize, \$200; fourth and fifth prizes, \$150 each; five stories at \$100 each; five stories at \$50 each.

The only limitations put upon writers are that the manuscripts shall run between three thousand and eight thousand words; that they shall relate in some manner to the country west of the Mississippi River, or to any locality north of the equator in lands washed by the Pacific, although preference will be given those relating to the Western States. They must all relate to the out-of-doors, and be buoyant, cheerful, and hopeful.

All stories should reach this office not later than July 31, and prize winners will be announced in the October number. The author's name and address should not be attached to the manuscript, but should be submitted in a separate sealed envelope which should simply bear the title of the story.

The stories will be passed upon by three readers, all of them independent of the editorial staff. All manuscripts not receiving prizes, or purchased independently, will be returned at the close of the competition, providing stamps for such return are enclosed. All should be typewritten, and should be plainly addressed: "Short Story Contest, Sunset Magazine, San Francisco, California."

The Amalgamated has drilled some distance east of La Brea boulevard, east of the old Salt Lake wells, and has obtained some very fair wells. The oil here is the heavier variety, which is found as much as the light in the main district. A majority of the wells are along the eastern edge of La Brea boulevard, but others are some distance back.

The Sherman Field. The rotary is encountering very heavy work in the district into which it has been introduced for the first time just west of the Los Angeles-Pacific line from Sherman to Sherman Junction. There are about 100 feet of conglomerate to go through. So far it has done the work very successfully, and the Amalgamated is well satisfied from all accounts. A cable string, starting ten days before, was overtaken by the rotary after three strings of pipe had been used by the former in going the feet.

The first rotary, west of Beverly, is proceeding very slowly since shutting off the water. It is now below 2200 feet. Signs of the presence of oil have been found, but nothing more. The well that is being drilled out by Savelle by the Champtite is down some 1700 feet and progressing slowly.

NOTED GUESTS QUIT QUEBEC. QUEBEC, July 28.—The two French battleships are the only ones left in the harbor, the sailing of the Indomitable last midnight with the Prince of Wales aboard having been followed by the departure of the New Hampshire and all the British ships. Mr. Fairbanks, Count Montclair, George Wolfe, and other official guests left during the day.
